DRION[®]
dry for your health

SEP Trade's mission is to be your Trusted Medical Trade Partner. Our team has over 20 years of combined experience in Trade, Operations and IT.

We are a UAE DED licensed company for sterilizers, disinfectants, masks, gloves, pharmaceutical products, cosmetics and other healthcare products.

With a large variety of trade products, we ensure our customers get our whole focus on what is currently in high demand.

Drion Australia specializes in negative ion products including sanitary napkins, baby diapers, adult incontinence diapers, negative ion patches and negative ion toothbrush.

Drion: Passion, Commitment, Trust, Health, Life

Four different choices for every single day of the month

WHAT IS DRION?

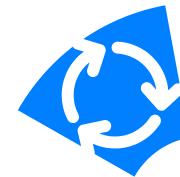

Drion is a brand which focuses on **Negative Ion** products:

- **Sanitary Pads**
- Baby Nappies/Diapers
- Adult Incontinence Pads
- Underpads / Undersheets

WHY NEGATIVE ION PRODUCTS?

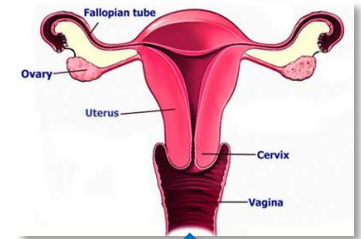

- **Superior to existing products**
 - Contains Negative Ions
 - Contains Far-IR
 - Contains a free Ph test kit
- **Consumable/repeatable**
 - Small product with
 - regular consumption
 - Repeated monthly sales
 - Ongoing Necessity = Longevity
- **Good margins/pricing**

Superior Quality Characteristics

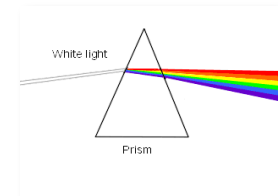

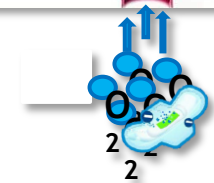

a) Contains Negative Ions in pads

- Negative Ion Strip sends out negative ions which will produce large quantities of oxygen. The oxygen produced kills bacteria and viruses
- Negative ions move up the womb through the vagina, improving blood circulation, therefore discharging blood smoothly and more regularly.
- Inflammation and odors are minimized.

b) Contains FAR-IR

- The FAR-IR creates additional warmth which increases the circulation of blood and helps repair the wall of the womb.
- The FAR-IR will also provide pain relief and through the removal of moisture helps prevent fungal propagation and minimises odours.

c) Vaginal Health Self-Test

- Drion is the only company to supply a Vaginal Health Self-Test Kit and it comes FREE within each pack of pads and liners.
- The kit contains a PH test strip and cotton bud so women can monitor their vaginal health each month.

d) Super Absorbent

- No leaks
- No mishaps
- No worries

Superior Quality Characteristics

e) Non Toxic

Drion	Competition
<ul style="list-style-type: none">• Does not use recycled paper	<ul style="list-style-type: none">• Many use recycled paper (which require chemicals to bleach, disinfect and deodorise)
<ul style="list-style-type: none">• Uses food grade adhesives	<ul style="list-style-type: none">• Many use chemical adhesives

f) Superior Packaging

- Packed in aluminium foil meeting the food hygiene standard (vs competitors using plastic moulded sheeting)
- Resealable packaging for extra protection of contents
- Seamless packing of each pad to prevent bacterial invasion

g) Better for the environment

- Uses over 70% organic materials which do not contain pesticides or any other chemicals.
- Super absorbent organic polymer made from pine resin (i.e. not from synthetic chemicals).
- Free of dyes, artificial colouring, or chemical additives making them sensitive to your skin.
- Over 80% biodegradable and compostable.

Your proposal for a 20” container
